ORDER FORM ON THE BACK FLAP

Last November, the National Museum reopened its doors to the general public on a permanent basis. In order to commemorate this event, NMNews is devoting most of this issue to periodic activities that have occurred within the museum ever since the process of rehabilitation began. While a comprehensive history of the National Museum has yet to be written, the following pages of NMNews should at least depict the brackets within which the museum's history has so far occurred.

This Issue of NMNews was made possible with gifts from Banque Saradar.
